

# CL Series

*Portable Electronic Balances*

The Ohaus CL series is an alternative to other compact portable scales when cost is critical. With basic weighing and a simple 2-button keypad, you start weighing right out of the box. Use it in the office, lab or in the factory, or carry it with you anywhere. There's no reason to settle for other brands when you can have an Ohaus.

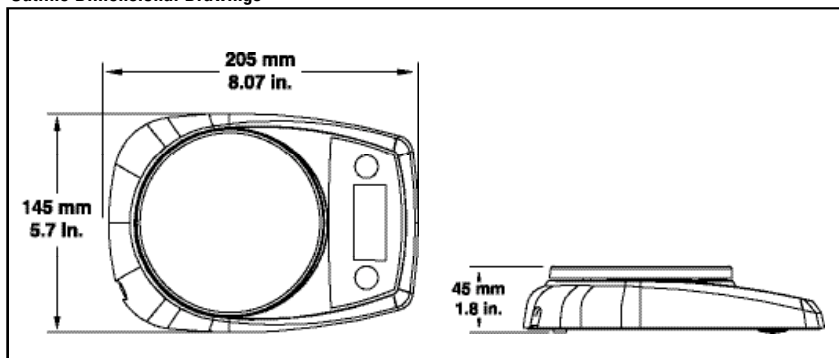

- Load cell lock protects scales when transported or stacked for storage
- Molded stacking ring under scale allows several scales to be stacked for storage without sliding
- Auto shut-off feature conserves energy
- Battery or AC powered (with optional AC adapter) for operation anywhere
